

**Title: Data Analysis Intern**

SLOCAT is the international multi-stakeholder partnership that enables collaborative knowledge and action for sustainable, low carbon transport and brings the voice of the movement into international climate change and sustainability processes. With a primary focus on land transport, and a geographic footprint targeted at the Global South; SLOCAT delivers on its mission through 3 mutually-reinforcing work streams; knowledge and policy analysis; advocacy and engagement, and dialogue and networking. The Partnership engages a vibrant international, multi-stakeholder ecosystem of over 90 entities across transport sector associations, knowledge and academia, governments, multilateral organisations, NGOs, philanthropy and industry; as well as a large community of world-class experts and change-makers.

The data analysis intern will support evidence-based knowledge production and advocacy on transport, climate change and sustainable development. S/he will support data collection, development of methodologies, and the production of knowledge products. The intern will work under the supervision of the Director of Data Analysis and Research.

**Duties and responsibilities:**

- **Data collection:**
  - Supports the collection of relevant data-sets on transport, climate change and sustainable development.
  - Supports the collection of new and the update of existing data-sets on relevant topics and compiles them in provided matrices.
  - Supports the maintenance of databases of the SLOCAT Secretariat.
- **Data analysis:**
  - Supports quantitative and qualitative analysis by exploring new approaches.
  - Analyses and summarises data through indicators, visualisations and reports.
- **Knowledge product development:**
  - Supports the development of knowledge products by synthesising data and summarising key insights and trends to maximise impact within the sustainable, low carbon transport movement.
  - Supports the translation of data into accessible, high quality knowledge products.

**Skills required:**

- Master's degree in a relevant field (transport, geography, engineering, environment studies); relevant work experience in lieu of degree is accepted.
- Knowledge of transport, climate change and sustainable development.
- Excellent computer skills in Microsoft Office (esp. Excel), knowledge of Tableau, GIS, Python are favoured.
- Fluency in oral and written English. Other languages are an asset, particularly French and Spanish.
- Detail-oriented and organised thinker who can juggle multiple, competing priorities.
- Ability to work independently and across time zones.
- Proven ability to work in multi-disciplinary and multi-cultural teams.

*This is a paid internship position (preferably full-time) to be developed through remote work arrangements. Candidates available for a minimum of three months are invited to apply.*

Interested candidates kindly submit your application (CV and one-page maximum motivation letter) to [secretariat@slocatpartnership.org](mailto:secretariat@slocatpartnership.org) by 11:59pm Pacific Time (California, U.S.) 7 March 2022, indicating earliest available start date and envisioned duration. Shortlisted candidates will be invited for an online interview.
