

Urban Access

By 2030, 6 out of every 10
people will live in a city

TARGET: *Secure universal access by sustainable transport for urban populations by 2030*

Process Indicators:

- Mean daily travel time for individuals to reach employment, education, health and community services (desired achievement: less than 90 minutes per day for a return trip).
- Proportion of income spent by urban families on transport to reach employment, education, health and community services (desired achievement: less than 20% of household income for poorest quintile).
- Proportion of households within 500 metres of good quality affordable public transport accessible by dedicated walking and/or cycling facilities (desired achievement: 100%).
